lock-outs or acts of God, provided notice of the happening of such events is given by either party to other, within 21 days from the date of occurrence thereof, neither party shall by reason of such event be entitled to terminate the contract nor shall either party have any claim for damage against the order in respect of such non-performance or delay in performance and deliveries under the contract shall be resumed as soon as practical, if such event has come to an end or ceased to exist.

3.13. Termination

3.13.1 Termination on expiry of the CONTRACT: The Agreement shall be deemed to have been automatically terminated on the expiry of the Contract period unless the TTDC has exercised its option to extend the Contract in accordance with the provisions, if any, of the Contract.

3.13.2 Termination on account of Force Majeure: Either party shall have the right to terminate the Contract on account of Force Majeure, as set forth.

3.13.3 Termination on account of insolvency: In the event the Successful Bidder at any time during the term of the Contract becomes insolvent or makes a voluntary assignment of its assets for the benefit of creditors or is adjudged bankrupt, then the Employer shall, by a notice in writing have the right to terminate the Contract and all the Successful Bidder's rights and privileges hereunder, shall stand terminated forthwith.

3.13.4 Termination breach of contract: A breach by the Successful Bidder of its obligations hereunder and such breach not being rectified by the Successful Bidder within 30 days of receipt of the TTDC notice intimating such breach. Upon termination, the Successful Bidder shall surrender all the data and materials belonging to the Purchaser.

3.13.5 Termination for delay: Successful Bidder shall be required to perform all activities/services as per this conditions and specifications. If the Successful Bidder fails to do so, the Contract may be terminated by the TTDC by giving 30 days written notice unless the TTDC has extended the period with levy of Liquidated Damages, as per Clause 3.11 of the tender.

In the event of short supply or delay in supply, the balance goods to be supplied shall be procured from the available supplier and amount for the same will be recovered from the successful bidder besides stern action to be taken as per tender conditions.

Signature of the Bidder

3.13.6 The TTDC may at any time terminate the Contract by giving 30 days notice without assigning any reason there for.

3.13.7 Consequences of termination: In all cases of termination herein set forth, the obligation of the TTDC to pay shall be limited to the period up to the date of effective termination. Notwithstanding the termination of the Agreement, the parties shall continue to be bound by the provisions of the Agreement that reasonably require some action or forbearance after such termination.

3.13.8 In case of termination of Contract herein set forth except on expiry of contract period and on account of Force Majeure the Contractor shall be put on holiday [i.e. neither any enquiry will be issued to the party by the TTDC against any type of tender nor their offer will be considered by the TTDC against any ongoing tender(s) where contract between the TTDC and that particular Contractor (as a bidder) has not been finalized] for two years from the date of termination by the TTDC to such Contractor.

3.14 Disputes

Any dispute arising out of this agreement or that which may arise in future, will be resolved by taking recourse to mutual settlement in the instance, failing which the dispute will be subject to Chennai Jurisdiction only.

3.15 Whereas the technical specifications and other tender conditions have been specified to the extent of receiving a good product and service in the interest of corporation, if the bidder suppresses and/or furnishes faulty facts and resorts to any other action with mala fide intention with the sole intention of bagging the order at any cost or supplying the products which are not of the best quality or in violation of tender specifications, then the Corporation or any of its official are in no way responsible for any subsequent loss/damage arising out of such mala fide action.

The bidder alone is solely responsible for all such liabilities arising out of any fraudulent actions

least of 4 layer thick fiber glass with suitable support members. The aft deck is to be covered with 4 layer thick fiber glass.

3. The hull is to be stiffened by longitudinal hat section stiffeners, (three in each hull) together with transverse hat section stiffeners (seven in each hull). The hat section stiffeners are to be of hollow fibre glass and filled in situ with polyurethane foam of density 32 kg/cu.m.

4. The hull is to be filled with approximately 40 kg of polyurethane foam to make the vessel unsinkable and stable in swamped condition

5. The cross-deck is to be built with medium camber, should have a gracefully designed sheer and supported on cross-deck beams (six numbers extending fully to the hulls on both sides). The cross deck should be adequately stiffened to take the weight of passengers on deck. The deck should be finished with anti-skid surface and painted with polyurethane spray coating. The cross deck may also be of box type construction.

6. The hull should be provided with adequate collection of water to a low point for bailing/pumping out. There should be access to the hull inside for inspection. The manhole covers should be built to acceptable standards and provided with water tight covers.

7. The boat should be provided with access hatches to enter the hulls and storage space should be provided for keeping spares, life jackets etc.

8. The boat should be provided with all around fibre glass fender of dimensions not less than 80 x 60, with light wooden core backing inside or alternatively rubber fender.

9. The boat should be provided with stainless steel/polished brass bollards on all four sides (total four numbers).

10. The boat should be provided with tubular railing as shown in the plan.

11 .The deck should be painted with polyurethane paint (sprayed) and the hull should be gelcoat finished with appropriate colours as chosen.

12. The name and emblem of TTDC should be provided on both sides of the boat. This should be computerized adhesive type film.

13. The main dimensions and general arrangement given should be strictly adhered. Any deviations with regard to these, will lead to summary rejection of the bid.

Signature of the Bidder

14. Draft marks are to be indicated both forward and aft.
15. The bid offer should include three years of guarantee maintenance from the date of commissioning.

TECHNICAL SPECIFICATION FOR 8 SEATER FRP MOTOR BOAT
WITHOUT OBM

Description:

The 8 seater mono- hull motor boat is to have a speed of 11 knots powered with 25HP 4 stroke OBM. The hull form should be sleek, streamlined and elegant to optimize propulsive power so as to achieve maximum possible cruising speed with the 25 HP OBM to be fitted. Where canopy is required, it should be provided as a light fiber glass corrugated type roofing supported on epoxy coated/powder coated tubular steel frame support. The canopy design should be approved by the consultant and it is emphasized it should give sleek appearance with a degree of curving at the two sides to shelter the passengers from slanting rain, sun. Bidder should provide General Arrangement drawing to scale, showing the profile, plan and mid-ship section of the boat. Main structural members, shell thickness, deck and fender details, foam filling location with approximate quantity of foam in each region should be indicated in the bid submitted. The drawing should indicate the inclusion of all the specifications indicated below. Failure to include correct technical drawing and specifications will lead to rejection of the bid .Any bid without drawings (not pictures) will be rejected.

1. The following are the approximate dimensions, a deficient maximum tolerance of 5% is permitted, however the total deficient tolerance cannot exceed 10%:

Length : 7m

Breadth : 2m

Depth : 0.80m

2. It should have fiber glass bucket type seating for 8 passengers all facing the forward of the boat. The seat back rest should be rigid and not deflect in use. Seats not meeting these minimum standards will be rejected and will have to be replaced by the manufacturer. There should not be any visible raw finish of fiber glass. The seating should ensure comfortable ergonomic seating, posture and space for tucking legs. The seat should reflect good ergonomics to be approved by the consultant.

Signature of the Bidder

3. The hull is to be reinforced with at least five layer of fiber glass consisting of a combination of chopped strand mat and woven roving impregnated with isophthalic resin. Single hull construction is accepted
4. The boat will have inner paneling so that no rough fiber glass finish is visible from anywhere.
5. The boat will have an aesthetic, strong forward bow deck of approximately 1m length.
6. The inner bottom area is to be provided with wooden grating and any bilge water accumulating in the bottom should be capable of being bailed out by removing the wooden grating at the middle portion and being put back after water removal operation. Since the boat is of open construction, the timber should be of good quality .The timber should be painted. The bottom should in no case be permanently sealed and no bottom foam filling is allowed.
7. Adequate space should be provided between seats however unnecessary vacant spaces should be avoided by intelligent design with ergonomics to avoid crowding of passengers at side.
8. Polyurethane form filling is to be provided by filling in distributed areas of hull. There shall be no foam filling at the bottom of the boat. The foam filling is to be provided in the forward bow region, the aft end transom region, the vertical spaces between inner paneling and outer hull on both sides of the boat , and to some extent, under the bucket seats, after providing comfortable leg tuck in spaces under seats. The seat must be a single piece integral with base, seat and back rest, with suitable foam filling in the base. The seat is to be efficiently bolted or secured to the hull. Seats must be durable considering the open weather condition in which the boat is operated. There should be no raw fiber glass surface anywhere. Seats must be guaranteed to last minimum 3 years during the maintenance period and should be serviced by the manufacturer as required. Ugly patchworks are not permitted.
9. The hull structure should be stiffened with a system of longitudinal and transverses consisting of hat section stiffeners of approximately 100 width and 75 height with 5 layers.
10. The boat should be designed to give maximum speed of 11 knots when operated with 25 HP OBM.

Signature of the Bidder

11. The fender should be internally timber reinforced and externally made integral with the hull in fibre glass with dimensions 100 width x 60 depth. Alternatively best quality marine rubber fender (Different types or equivalent) is to be provided with guaranteed life of not less than 3 years. In the event of deterioration the manufacture has to replace the rubber fender during the 3 years.
12. The boat should be fitted with one stainless steel bollard at the bow and one each on the starboard and port side in the aft.
13. The boat hull should be finished with thick polished layer of gel coat.

14. The name and emblem of Tamilnadu Tourism should be fixed with computerized stickers of approved size (by consultant) on the two sides with lettering height 100 with high quality adhesive bonded plastic film computerized process.

15. The bid offer should include service maintenance for 3 years after delivery.
